10 	While heeling, the dog/handler team makes a 360-degree turn (a complete circle) that begins to the handler's right. The final direction is the same as that of the dog/handler team before starting the exercise.	S	1	✗
11 	While heeling the handler stops his/her forward motion approximately level with the sign and calls the dog to the front position. The dog continues to move during this portion of the exercise – the dog does not sit as it goes to the front position. The handler may step backwards as the dog turns and moves to sit in front of and facing the handler. The backward movement of the handler must be no more than three steps taken straight back. The handler is not to move to the side to position him/herself in front of the dog; the dog must move to sit directly in front of the handler. The dog may go past the sign to accomplish this. For the second part of the exercise, the handler cues the dog to move from the front position to the handler's right, around behind the handler and into the heel position as the handler continues forward. The dog does not sit in the heel position.	M	1	✗
12 	The Call Front part of this exercise is performed as in Exercise 11. For the second part, the handler cues the dog to move from the front position to the handler's left and into the heel position as the handler continues forward. The dog does not sit and the handler moves forward as the dog comes into heel position.	M	1	✗

	The Call Front portion of this exercise is performed as in Exercise 11. For the second part, the handler cues the dog to finish by moving from the front position to the handler's right, around behind the handler and finally sitting in the heel position. The handler then cues the dog to heel and moves forward.	S	2	X
	The Call Dog Front portion of this exercise is performed as in Exercise 11. For the second part, the handler cues the dog to finish, moving from the front position to the handler's left, and sitting in the heel position. The handler then cues the dog to heel and moves forward	S	2	X
	As the dog/handler team draw level with the sign they decrease their pace so that there is a noticeable difference from the dog's normal pace. In Level 1-5 this exercise must be followed by Exercise 17 (Normal Pace), or it may be placed as the last exercise on the course, in which case the exercise and performance are concluded as the dog/handler team crosses the Finish Line. In Level 6 it is permissible for this exercise to be followed by either Exercise 5 (Right Turn) or Exercise 6 (Left Turn) but this must then be followed by either Exercise 17 (Normal Pace) or the Finish sign. 	As the dog/handler team draw level with the sign they move forward at a normal pace that is comfortable for the dog and handler	M		X
	While heeling past the sign, the handler takes one diagonal step with his/her right foot, forward and to the right with the sign on the right. The handler then steps with the left foot, also forward and to the right, along the newly established line. The exercise is performed AFTER the sign.	M		X
	The handler and dog stop with the dog sitting at heel. They then execute a 90 degree turn to the handler's right, the dog moves with the handler as they turn. They then heel forward.	M	1	X
	The handler and dog stop with the dog sitting at heel. They then execute a 90 degree turn to the handler's left, the dog moves with the handler as they turn. They then heel forward.	M	1	X
	Four cones are placed in a straight line approximately 1.5 metres apart. The sign is placed near the first cone in the line. Entry into the weaving pattern is between the first and second cone with the first cone on the dog/handler team's left. Dog and handler weave through the cones, loop the end cone and weave back to the beginning of the pattern. The exit direction from the pattern is dependent on the placement of the next exercise.	M		X
	Four cones are placed in a straight line approximately 1.5 metres apart. The dog/handler team enters with the first cone on their left, weaves through the cones and exits at the last cone. The dog/handler team does not weave back through the cones.	M		X
